

# MD POLICY 2026

## 1. Safety and Health First

Safety promotes the development of simple and reliable work procedures and fosters a culture of compliance.

## 2. Stable Quality Control

Stability maintains consistent quality and productivity through robust systems and data analysis.

## 3. Efficient Business Improvement

Efficiency aims to improve cost-conscious productivity by utilizing ERP and eliminating waste.

## 4. Human Resource Development for Growth

Growth promotes the development of diverse human resources through enhanced communication and the use of a skills matrix.

## 5. Sustainability and Harmony

Harmony will lead to social contributions in line with the SDGs, such as reducing CO<sub>2</sub> emissions and promoting recycling.
